

PRODUCT INFORMATION

ALUMINIUM BRASS PIPES & TUBES

PRODUCT INFORMATION

Alloy	C68700, CZ110, C6870, CuZn20AL2 & Equivalent
Condition	Drawn, Annealed, Seamless
Norm	ASTM, BS, DIN, EN, JIS AND EQUIVALENT
Size Range	10mm to 419mm

Applications:

Marine and Offshore Industry

Heat Exchangers
Cooling Systems
Shipbuilding

Automotive Industry

Radiators
Air Conditioning Systems

Industrial Applications

Heat Transfer Systems
Chemical Processing

Oil and Gas Industry

Pipeline Systems
Control Systems

Water Treatment and Distribution

Water Pipes

Pneumatic and Hydraulic Systems

Fluid Transport

Air Conditioning and Refrigeration

Refrigerant Piping

Properties :

Excellent Corrosion Resistance
High Strength & Durability
Resistant To Dezincification
Biofouling Resistance
Good Thermal Conductivity
Good Formability & Weldability
Moderate Electrical Conductivity
High Wear Resistance
Fair Machinability
