

PRODUCT INFORMATION

ALUMINIUM PIPES

PRODUCT INFORMATION

Alloy	1100, 5083, 5052, 6061, 6063, and Equivalent
-------	--

Condition	Seamless
-----------	----------

Norm	ASTM, BS, DIN, JIS AND EQUIVALENT
------	-----------------------------------

Size Range	6mm to 300mm
------------	--------------

Wall Thickness	1mm to 20mm
----------------	-------------

Applications:

Construction & Architecture

Window and Door Frames

Drainage and Plumbing

HVAC Systems

Automotive & Transportation

Fuel lines, Air Conditioning Tubing

Chassis Components

Crash Management Systems

Aerospace Industry

Aircraft Structures

Hydraulic Lines

Fuel Systems

Electrical & Electronics

Conduits for Electrical Wiring

Heat Sinks and Cooling Systems

Antenna structures and cable shielding

Industrial Applications

Compressed Air Systems

Pneumatic Lines

Process Piping

Properties :

Weldability	Excellent
-------------	-----------

Machinability	Good
---------------	------

Formability	Good
-------------	------

Resistance to Corrosion	
-------------------------	--
