

PRODUCT INFORMATION

COPPER NICKEL ROUND BAR

PRODUCT INFORMATION

Alloy	C70600, CW352H, CuNi10Fe1Mn & Equivalent
Condition	Drawn, Extruded
Norm	ASTM, BS, DIN, EN, JIS, AND EQUIVALENT
Size Range	20mm to 200mm

Applications:

Marine and Offshore

Propeller Shafts and Marine Hardware
Piping and Fittings

Heat Exchanger and Condenser Tubes

Heat Exchangers
Condensers

Chemical and Petrochemical Industry

Corrosion-Resistant Components
Storage Tanks and Pressure Vessels

Automotive Industry

Fuel System Components
Braking System

Electrical and Electronics Industry

Electrical Contacts and Connectors
Heat Sinks

Aerospace and Aviation

Aircraft Components
Heat Exchanger Parts

Renewable Energy Systems

Wind Turbine Components
Solar Power Systems

Properties :

Excellent Weldability & Machinability
Excellent Corrosion Resistance in Seawater
Good Resistance to Stress Corrosion Cracking
Non Magnetic
