

## PRODUCT INFORMATION

### COPPER SHIMS

PRODUCT INFORMATION

Alloy C10300, C103 and Equivalent

Condition Rolled

Norm ASTM, DIN, JIS, & EQUIVALENT

Size Range 6"x50" , 6"x100"

Thickness 0.05MM to 0.9MM

#### Applications:

##### **Automotive Industry**

Engine Components

Brake System

##### **Electrical Components**

Heat Sink

Connectors and Circuit Boards

##### **Industrial Machinery**

Precision Machining

Gear Assemblies

##### **Aerospace**

Aircraft Engines

Landing Gear System

##### **Renewable Energy(Wind and Solar)**

Wind Turbine Assemblies

Solar Panel Mounting

##### **Power Generation**

Transformers

Generators

##### **Marine Industry**

Ship Engines

Sealing Gaskets

#### Properties :

Machinability **Poor**

Hot Workability **Poor**

Cold Workability **Excellent**
