

PRODUCT INFORMATION

NYLON ROUND BAR

PRODUCT INFORMATION

Material PA6, PA66 and Equivalent

Condition Extruded

Norm ASTM, DIN, EN AND EQUIVALENT

Size Range 10mm to 400mm

Applications:

Machined Components

Bushings, Gear
Spacers, Rollers
Sprockets, Pulleys Wheels

Automotive Industry

Bearings, Washers
Grommets
Mounting Brackets

Electrical & Electronics

Insulating Components
Cables Ties
Terminals

Hydraulic and Pneumatic System

Seals, Gaskets
Valves Seats
Backup Rings

Textile & Packaging Machinery

Bobbin Holders
Guide Rails
Rollers

Properties :

Excellent wear and abrasion resistance
High mechanical strength and toughness
Good sliding properties
Resistant to oils, greases,
Lightweight alternative to
Low noise in mechanical operations
Moderate UV resistance
