

PRODUCT INFORMATION

PERFORATED SHEETS

PRODUCT INFORMATION

Alloy	304, 304/L, 316, 316/L, Mildsteel, GI
Condition	Rolled, Punched
Norm	ASTM, DIN, EN, JIS AND EQUIVALENT
Size Range	1000X2000mm, 1220X2440mm, 1250X2500mm
Thickness	0.5 to 10mm
Hole Size	0.4 to 50mm

Applications:

Architectural and Decorative Design

Facades and Cladding
Ceilings and Partitions
Baffles and Screen

Filtration System

Liquid and Gas Filtration
Water Filtration

Industrial and Mechanical Applications

Soundproofing and Acoustic Panels
Grills and Ventilation Systems
Protective Screens and Guards
Industrial Racks and Shelves

Automotive and Aerospace Applications

Exhaust Systems
Aerodynamic Components

Marine and Offshore Applications

Marine Structures
Offshore Platforms

Electrical Application

Light Fixtures
Heat Dissipation

Properties :

Strength & Durability	Excellent
Heat Resistance	High
Sound Absorption	Excellent
Corrosion Resistance	Excellent in SS; MS & GI Needs Coating
Weather Resistance	Good
Ventilation & Filtration	Good
